

University
of Exeter

COMPETITION

At the University of Exeter, we want to hear your ideas about Renewable Energy. We're inviting A-Level, IB, BTEC and GCSE students in any subject to send us a response to one of the questions below:

Discuss the role of renewable energy sources in mitigating climate change and reducing global dependence on fossil fuels.

How have we moved from installing the UK's first commercial wind farm to today's large-scale on- and offshore wind farms, and what's next for the wind industry?

How can we persuade people with gas boilers to replace them with heat pumps when they next replace them?

There will be two prizes. One for the best essay (1000 words), and one for the best video (6-7 mins)

To enter, simply fill out the form available via the QR code below. The deadline for entries is 20th December 2024.
