

# Food waste recycling

## Yes please

- ✓ Coffee grounds
- ✓ Cooked food
- ✓ Dairy products e.g. cheese
- ✓ Egg shells
- ✓ Meat and fishbones
- ✓ Out of date food
- ✓ Raw food

## No thanks

- ✗ Liquid foods - milk, oil
- ✗ No “compostable” items - straws, coffee cups
- ✗ No food packaging - cans, plastic
- ✗ Blue roll or napkins
- ✗ Any other type of waste

### Did you know?

If food waste was a country, it would be the 3rd highest emitter of greenhouse gases.

### Our solution?

We turn your food waste into energy and fertiliser. We think that's brilliant!

# How to recycle your food waste

## Step 1:

If you have a food waste bin in your kitchen, make sure it has a clear or compostable bag in it. If you do not have a food waste bin, get a container. It can be a Tupperware, a plastic box, anything waterproof and reusable!

## Step 2:

Put your food waste into your container or bin. Store it in your kitchen until full.

## Step 3:

Once your container or bin is full, empty the contents into a food bin outside in your nearest bin store.

- ✓ Make sure whatever is going in the food waste is just food (no packaging)!
- ✓ If you don't have any bags to line your container or bin with, food waste can be wrapped in newspaper.
