## Introduction

Where an award is credit-rated, the award has a total credit value. The total credit value includes the minimum amount of credit that is required at the academic level of the award and the maximum amount of credit permissible at the lowest academic level.

In the tables below, the parent code identifies the level of study, the RQF Level of the final award, and the number of stages.

Code	Level of study
P	Pre-Undergraduate
U	Undergraduate
UA	Undergraduate Apprenticeship
T	Postgraduate Taught
TA	Postgraduate Taught Apprenticeship
R	Credit-Rated Postgraduate Research
N	Non-Credit-Rated Postgraduate Research
H	Higher Doctorate

Code	Level of study
3	Foundation Certificate (FDCert)
4	Certificate of Higher Education (CertHE)
5	Diploma of Higher Education (DipHE)/Foundation Degree (FD)
6	Degree with Honours, Ordinary Degree
7	Master’s Degree, Integrated Master’s Degree
8	Doctorate

Thus, the parent code P31 identifies the award as pre-undergraduate, at Level 3 comprising a single stage; the parent code U63 identifies the award as undergraduate at Level 6 comprising three stages.
