Transformative Education

Through the Transformative Education Framework (TrEF), we will use the power of education to transform our students' lives so that they, in turn, can transform the world. We introduced this education innovation in 2021 as part of the implementation of the Success for All Strategy. Our approach to the three principles of the framework – sustainability, inclusive education and racial and social justice – is both holistic and intersectional.

The Educator Development team have already developed workshops and resources on the following Transformative Education topics. We are always developing new workshops and resources, and can also develop bespoke training and support with you.

- **Responsible futures and integrating Sustainable Development Goals (SDGs)** - A workshop exploring the ways to integrate the UN SDGs in to curriculum content.
- **Combining decolonisation and sustainability** - In this session you will be introduced to understanding and teaching sustainability through a lens of ecosocial justice.
- **Using the TrEF Curriculum enhancement toolkit** - In this session you will learn about integrating the three pillars of the TrEF (inclusivity, racial & social justice, and sustainability) into curriculum design and teaching practices.
- **Using the LGBTQ+ toolkit** - This workshop offers advice on how to address gender and sexuality in teaching delivery and curriculum design.
- **Teaching sustainability through play** - In this workshop, we introduce approaches such as Lego Serious Play to teach and understand about the climate crisis.
- **The dialogic classroom** - In this session we introduce the dialogic classroom, and how to promote freedom of speech, compassionate communication and using content warnings in teaching.
- **Climate Literacy Training for staff and students** - In this session, we are using the Transformative Education Framework to design and implement mandatory induction and CPD training on social and ecological responsibility.
- **Taking part in the SDG teach in** - We offer yearly guidance on how to take part in a campaign to incorporate the UN SDGs in to your teaching practice.

We also have resources available as part of the [Transformative Education Toolkit](#) and the [LGBTQ+ Toolkit](#).
