

## How to request an Associate IT account

This guide gives details on how to request or amend an IT account for a University of Exeter Associate.

**Please note that as of August 2021, new Associates do not automatically receive a Microsoft 365 (Word, Excel, PPT) licence to use desktop applications. Instead they will automatically receive online access via [Office.com](https://www.office.com). When requesting an Associate account the line manager will need to specify Associate Premium when creating the Associate.**

Associate IT accounts are added, amended, and deleted via the [Associate Management System \(AMS\)](#) which forms part of the University Directory system.

An Associate cannot request an IT account for themselves, with the exception of retiring Staff.

Managing an Associate's IT account is a workflow-based process, where you as a Requestor enter details on behalf of the Associate, and then an Approver approves the request:

If you need any further assistance on any of the topics in this guide, please contact the [IT Helpdesk](#).

1

## Access the University Directory

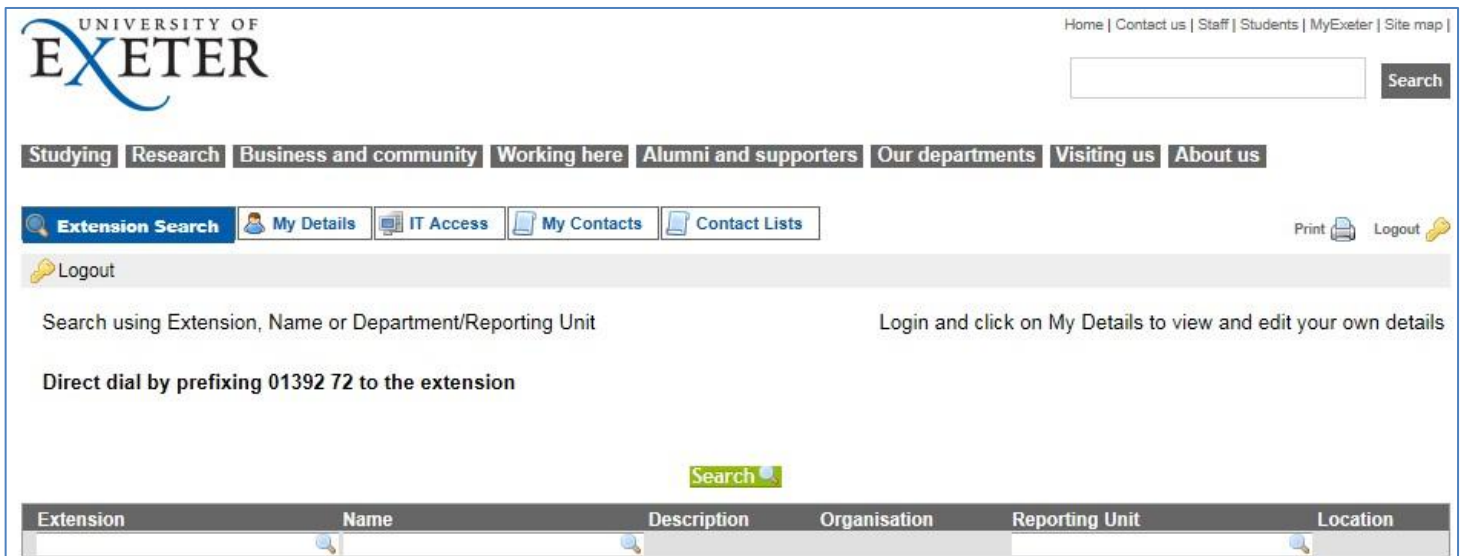

You can access the Directory at <https://directory.exeter.ac.uk/login.dhtml> This will give you the login screen as shown below:

The screenshot shows the 'Phone Directory Login' page for the University of Exeter. At the top is the university's logo. Below it, the title 'Phone Directory Login' is centered. The login form includes a 'Username' field with the text 'as660', a 'Password' field with masked characters, and a 'Remember Me' checkbox. A blue 'Login' button is positioned below the password field, with a mouse cursor hovering over it.

Enter your usual university login details and click **Login**.

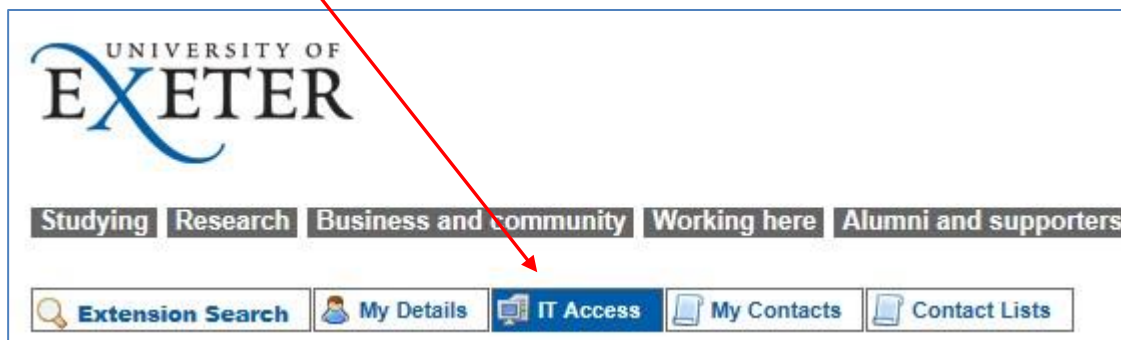

This will then show the Directory home page, where you normally look up people's contact details:

The screenshot displays the Directory home page. At the top left is the University of Exeter logo. On the top right, there are navigation links: Home | Contact us | Staff | Students | MyExeter | Site map |. Below these is a search bar with a 'Search' button. A horizontal menu contains links for Studying, Research, Business and community, Working here, Alumni and supporters, Our departments, Visiting us, and About us. Below the menu are several utility buttons: Extension Search, My Details, IT Access, My Contacts, and Contact Lists. On the far right of this row are Print and Logout buttons. A 'Logout' button is also visible on the left side. The main content area contains the text: 'Search using Extension, Name or Department/Reporting Unit' and 'Login and click on My Details to view and edit your own details'. Below this is the instruction: 'Direct dial by prefixing 01392 72 to the extension'. A 'Search' button is located at the bottom center. At the very bottom, a table header is visible with columns: Extension, Name, Description, Organisation, Reporting Unit, and Location.

## IT Access

Click on the **IT Access** button in the menu bar.

This will show a dropdown list of IT Access functions:

Note that when navigating these links you will need to carefully drag your mouse across the dropdown options.

To create a new Associate's IT account, click on **Request New IT Access**, then go to [section 3](#).

To amend an existing Associate's IT account, click on **Check Existing Requests**, and then go to [section 4](#).

To delete an existing Associate's IT account, click on **Check Existing Requests**, and then go to [section 5](#).

## Create a new Associate's IT account

Clicking on **Request New IT Access** will show a dropdown list of all the categories of University of Exeter Associates. Click on the one relevant to the new Associate.

The screenshot shows the University of Exeter website with the 'IT Access' menu open. The menu options are: Request New IT Access, Check Existing Requests, Approve Requests, and Activate Account. Below the menu is a table of reporting units with columns for Extension, Name, Reporting Unit, and Location. The 'Name' column is expanded to show a list of units including CLES Visitor Cornwall, Cornwall Associate, and Exeter Associate Premium.

Extension	Name	Reporting Unit	Location
	CLES Visitor Cornwall		
	CLES Visitor Exeter		
	Cornwall Associate		
	Cornwall Associate Premium		
	eClaims		
	eClaims Premium		
	Emeritus Professor		
	EMPS Visitor		
	Exeter Associate		
	Exeter Associate Premium		
	External Examiners		
	Honorary Appointment		
	Innovation Centre		
	Keypath		
	Medical School Exeter Academic		
	Medical School Exeter Research		
	Medical School Truro Academic		
	Medical School Truro Research		
	Staff Retired		
	Students Guild Staff		
	Temporary Staff Bank		
	University Affiliate		

This will then show the following screen, using **Exeter Associate** as a typical example:

The screenshot shows the 'IT Access Request - Exeter Associate Premium' form. It includes fields for Title, Forename, Surname, Gender, Date of birth, College/Service, Photograph, Contact Address, Staff member responsible for training, Start date, End date, and Notes/purpose. A 'Submit Request' button is at the bottom. A message at the bottom states: 'Your request for IT access requires approval. Once it has been approved you will be sent a link containing the account details.'

*Premium Associate Accounts can be requested for a recent graduates who still require M365 access. Please provide this information in the 'notes/purpose' field when submitting a request*

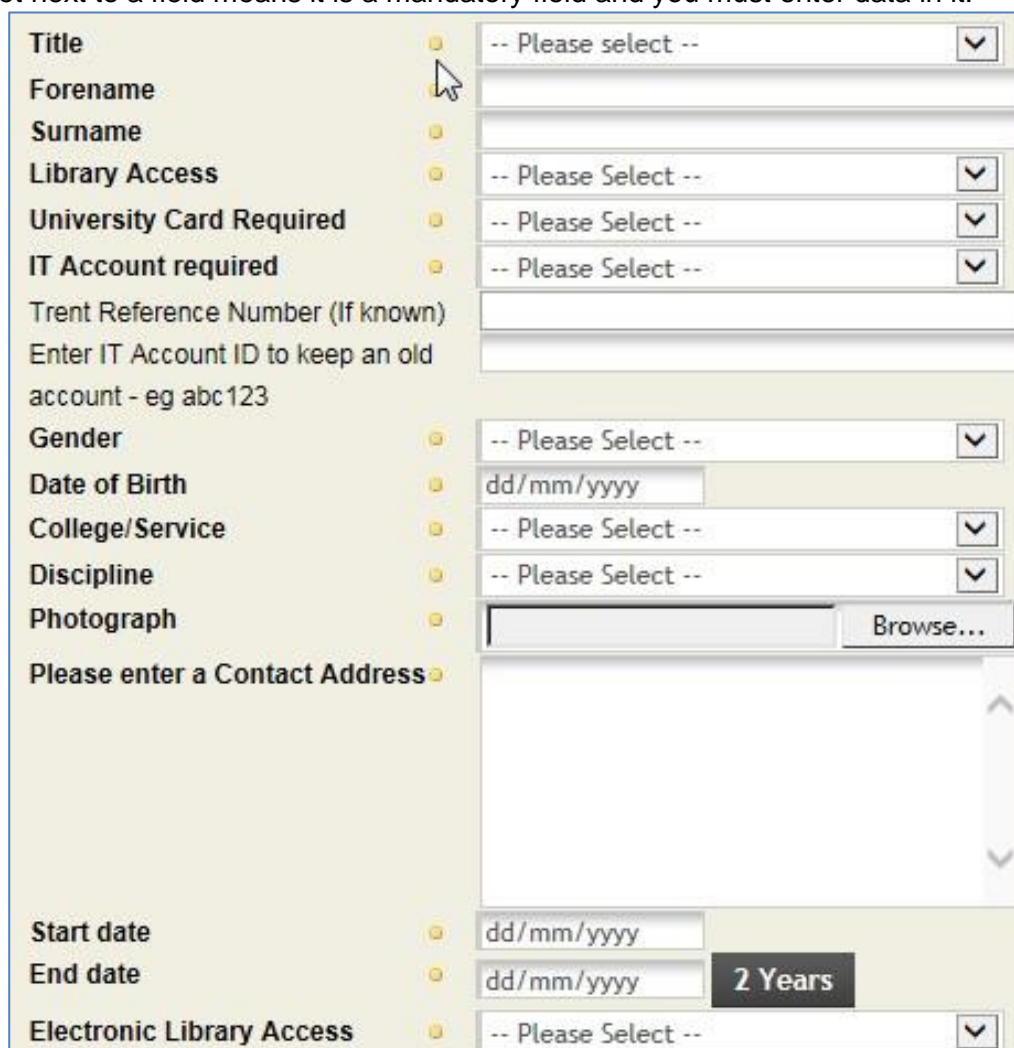

**Please note that we can not convert a Student account to Associate status, a new account will be issued.**

Associates are not allowed to request their own access.

Requests can only come from members of staff.

Enter data for the new Associate in all fields, using the dropdown options where applicable.

A yellow dot next to a field means it is a mandatory field and you must enter data in it:

Title	●	-- Please select --
Forename		
Surname	●	
Library Access	●	-- Please Select --
University Card Required	●	-- Please Select --
IT Account required	●	-- Please Select --
Trent Reference Number (If known)		
Enter IT Account ID to keep an old account - eg abc 123		
Gender	●	-- Please Select --
Date of Birth	●	dd/mm/yyyy
College/Service	●	-- Please Select --
Discipline	●	-- Please Select --
Photograph	●	Browse...
Please enter a Contact Address	●	
Start date	●	dd/mm/yyyy
End date	●	dd/mm/yyyy 2 Years
Electronic Library Access	●	-- Please Select --

Enter the **Start date** for when the Associate starts working at the University. Note that this can be in the past but will normally be in the future,

Ideally, enter the known **End date** for when the Associate will cease working at the University. If for any reason this is not known, then clicking on the **2 Years** button (in this example) will automatically add 2 years to the Start date. This auto End date calculation differs depending on the Associate category you are creating.

Note that if the Associate has previously had a University of Exeter IT account, and this is still valid, then this can be reactivated.

If **Library Access** or **Electronic Library Access** is required, then you must choose **Yes** for **University Card Required**. This is usually required anyway to allow door access in most university buildings.

For the University Card, you will need to upload a passport-type photo of the Associate. This will then appear on the Associate's uni card when printed.

Once all data has been entered click on **Submit Request**. If there are any data entry errors, the screen will be returned with these highlighted.

If all data is present and correct, an automated email will be sent to your Approver. You don't need to know the name or email address of the Approver as they are all set up in AMS for each category of Associate.

The Approver will then need to click on the link within the email, which will take them to the approval screen in AMS.

Once they approve your request to create the Associate's IT account, you will get an automated email back giving you details on how to activate the account.

Click on the link in the email to display the **Activate Account** screen in AMS. Follow the instructions on the screen and click on **Activate**.

The Associate's IT account will then be created, usually within a couple of hours.

You can then click on **Check Existing Requests** to show the list of your Existing IT Access Requests.

When the Associate's IT account is created, AMS will be updated to show the Associate's university Associate Reference number and Account username in this list, as shown in the example below:

Reference	Account	Expiry Date	Name	Profile
AE102192	js301	31 Aug 2014	Mr John Smith	Exeter Associate
AE102460	js307	27 Jun 2014	Ms Jane Smith	Exeter Associate

You will then receive an automated email with a PDF letter attached. This will contain the Associate's new IT account username and initial password and email address, as well as terms & conditions. Please emphasise to the Associate that they must abide by the University's [IT regulations](#).

Send this letter to the Associate or print it and give it to them.

Once the Associate has logged into their IT account for the first time, please tell them to change their initial password, using the [Self-service password reset](#) function.

Please note: [The Associate will also need to setup themselves on Multi-Factor Authentication](#)

#### 4 Amend an existing Associate's IT account

Clicking on **Check Existing Requests** will show a list of all Associate accounts you have requested previously, as shown in this example:

Existing IT Access Requests

Showing 1 to 2 of 2 results

Reference	Account	Expiry Date	Name	Profile	Status	T&C	Actions
AE102192	js301	31 Aug 2014	Mr John Smith	Exeter Associate	Expired		 
AE102460	js307	27 Jun 2014	Ms Jane Smith	Exeter Associate	Expired		 

To edit the Associate's details, click on the **Edit** icon at the right of the line

This will then show the Associate's details on the following screen :

## Edit IT Access Request for Exeter Associate

IT access for associates working/visiting the Streatham and ST Luke's campuses. Please note, we can not convert a student account to associate status, a new account will be issued. Associates are not allowed to request their own access/extension. Requests can only come from members of staff.

Requesting User	Andy Spedding (Exeter Status: Staff)	
Title	Ms	<input type="button" value="v"/>
Forename	Jane	<input type="text"/>
Surname	Smith	<input type="text"/>
Library Access	Yes	<input type="button" value="v"/>
University Card Required	Yes	<input type="button" value="v"/>
IT Account required	Yes	<input type="button" value="v"/>
Trent Reference Number (If known)	<input type="text"/>	
Enter IT Account ID to keep an old account - eg abc123	<input type="text"/>	
Gender	Female	<input type="button" value="v"/>
Date of Birth	06/04/1968	<input type="text"/>
College/Service	Academic Services	<input type="button" value="v"/>
Discipline	Academic Services	<input type="button" value="v"/>
Photograph	<input type="button" value="Browse..."/>	Please upload a photograph if one is available
Please enter a Contact Address	1 Rose Cottage Tiverton Exeter EX16 5AZ	
Start date	03/04/2014	<input type="text"/>
End date	31/08/2014	<input type="button" value="2 Years"/>
Electronic Library Access	Yes	<input type="button" value="v"/>
Notes / Reason for request	Jane will be working on the <a href="#">KSpa</a> project, reporting into Nathan Burden	
Message	Your request for IT access requires approval. Once it has been approved you will be sent a link containing the account details.	
	<input type="button" value="Save"/>	

You may want to amend any of the Associate's personal details, in which case you need to overtype the data on screen or change dropdown options.

But the main benefit of this function is to allow you to extend the **End date** of an Associate's IT account, as long as you have got confirmation that they have had a role renewal or extension approved by the College or Professional Services team for whom they work.

Once you have amended the data, click **Save**. This will then update the Associate's IT account, usually within a couple of hours.

Note that if the Associate is continuing to work at the University but in a different role or at a different campus, you should instead enter a proper **End date** on this screen and **Save** it, and then create a new Associate account under the correct Associate category (see section 3 above). You can then tie in the Associate's current IT account username to their new Associate record, which will allow them to retain their university email address.

## 5 Delete an existing Associate's IT account

Clicking on **Check Existing Requests** will show a list of all Associate accounts you have requested previously, as shown in this example:

Existing IT Access Requests

Show Issue Date

Showing 1 to 2 of 2 results

Reference	Account	Expiry Date	Name	Profile	Status	T&C	Actions
AE102192	js301	31 Aug 2014	Mr John Smith	Exeter Associate	Expired		
AE102460	js307	27 Jun 2014	Ms Jane Smith	Exeter Associate	Expired		

To delete an Associate's IT account, click on the **Delete** icon at the right of the line

This will then show a confirmation screen to ensure you don't delete the Associate's IT account by accident :

Are you sure that you want to delete this IT Access request?

I am sure I want to delete this item

**Proceed with delete**

Check the "I am sure..." tickbox and then click on **Proceed with delete** to permanently delete the Associate's IT account.

## 6 Changing an existing Associate's IT account

If you wish to upgrade or downgrade an Associate account (Standard Associate with online Microsoft 365 access or Premium Associate with Microsoft 365 desktop access ) please add an end date to the original request (cancel it) then recreate the Associate in the new profile (i.e. 'Exeter Associate' to 'Exeter Associate Premium'). Please note you need to ensure there is NO gap between requests.
